

*"Reading is the first instrument of freedom and it is the first thing to defend"*

## GIVE CHILDREN OF THE WORLD FREE ACCESS TO BOOKS

THE EARLY YEARS ARE THE  
BUILDING BLOCKS FOR A CHILD'S  
FUTURE IN TERM OF EDUCATION

YET ACCESS TO BOOKS IS UNEQUAL  
DUE TO THE PRECARIOUS SITUATION  
SOME COUNTRIES FIND THEMSELVES  
IN.

### OMNIS LIBER'S PROJECT IS TO CREATE A GLOBAL DIGITAL LIBRARY BASED ON BLOCKCHAIN TECHNOLOGY

1. Blockchain is a secure,  
transparent and  
foolproof technology

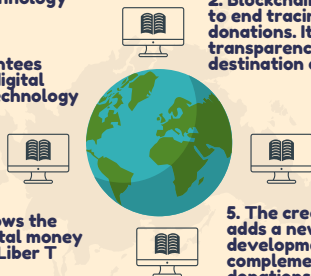

3. Blockchain guarantees  
authors's rights of digital  
books because its technology  
is unbreakable.

4. Blockchain allows the  
creation of a digital money  
token called the Liber T

6. Sale of Liber T allows the involvement of  
investors from the blockchain & crypto worlds in a  
philanthropic cause.

2. Blockchain allows the end  
to end tracing of all  
donations. It means total  
transparency of the use and  
destination of all donations.

5. The creation of the Liber T  
adds a new source of  
development finance which  
complements classic  
donations : the purchasing of  
tokens
